European project:

„EUROPA – DIE QUADRATUR DES STIERS“ (Europe, quadrature of the bull)

Dear Sir or Madam,

The E9N (Ensemble 9. November) in Frankfurt/Main is an independent theatre group, that combines different kinds of art such as literature, music, ballet, painting and plastic art to a total art work. Please find attached the pictures of their latest production.

„**EUROPA – DIE QUADRATUR DES STIERS**“ deals with the interpretation of Europe. The different ideas of each partner in this project will be connected to a joint production, directed by Dr. Fiebig.

Therefore we are searching for different kind of artists such as musicians, composers, painters, dancers and actors who might be interested in planning and performing the project in their cities.

We have the idea to find partners with the help of cultural centres or institutions which are involved in the organisation of festivals. This also includes private organisations.

These performances should take place in large places such as airports, railway stations or fairgrounds.

Thank you in advance for your help and assistance. For further questions do not hesitate to contact Dr. Fiebig. We are looking forward to hearing from you soon.

Yours sincerely

Petra Schwind
(Oberinspektorin)
